60.62 %
- ❖ Maharashtra State Board of Secondary Education Pune (SSC) 2017-2018
B.G.P. Sahyadri Vidyalaya , Sangamner.
86.20 %

Skills :

Web Technologies : HTML, CSS, JavaScript, Bootstrap.

Backend Technologies : Core Java, JDBC, JSP, Servlet, Spring Boot, Hibernate.

Database : MySQL, PostgreSQL.

Projects :

1. Portfolio.

2. Online Restaurant Management System.

- ❖ Developed and implemented an efficient Online Restaurant Management System, streamlining the customer experience and increasing order accuracy.
- ❖ Integrated user-friendly interfaces for both customers and restaurant staff, enhancing accessibility and ensuring smooth communication between users and the system.
- ❖ Developed backend functionalities using Java (JSP, Servlet, JDBC).
- ❖ Designed Frontend HTML, CSS, JavaScript, Bootstrap And Used MySql for Data storage.

3. Non Banking Finance Company(NBFC).

In this web application there are three main modules: Admin, Agent, and Customer.

- **Admin Module :**
 - Functions include managing user accounts, permissions, data, and other administrative tasks.
 - Integrated user-friendly interface for easy navigation and management.
- **Agent Module :**
 - Agents assist customers in the registration process and applying for loans.
 - Likely features include user registration, loan application management.
- **Customer Module :**
 - Customers can directly apply for loans without needing assistance from an agent.
 - Features include user registration, loan application submission, status tracking, and possibly account management.
- **Technology Stack:**
 - **Backend :** Java with Spring Boot for building Restfull APIs, and Hibernate for database interaction.
 - **Frontend :** HTML, CSS, JavaScript, and Bootstrap for creating responsive and user-friendly interfaces across all modules.
 - **Database :** PostgreSQL used for data storage.

Courses and Certificates :

Completed training program in Java Full Stack at Fortune Cloud Technology Pune.
